WHAT WE DO

We are the law firm for accounting firms. We have a depth and breadth of experience representing accounting firms on matters ranging from mergers and acquisitions, partnership agreements and other business matters, to guiding HR directors in how to manage employees and professionals. We work with firms that are considering adding non-traditional business areas to create the structure to support those lines of business, while protecting the core business.

WHO WE HELP

We've done over fifty deals to help firms receive fair value for what they've built and secure a future. We help HR directors and COOs navigate partner and employee issues to support their cultures, drive growth, and maximize employee assets.

HOW WE WORK

We work collaboratively within and across practice groups and strive to be strategic partners with our clients. We pride ourselves in providing practical advice, innovative solutions, market knowledge and unparalleled client service. We are always thinking about our clients' larger goals and business objectives and we work to protect their investments and minimize legal risk.
